GEN BAL

A Complete Software for Balance Sheet Preparation

One of the best features of our Balance Sheet Software is the capability to import data directly from Tally, Busy, MS Excel and other popular accounting and tax software. It allows importing of trial balance directly from third-party accounting software like Busy and Tally. Users can also file 3CA/CB directly within the software and upload online later. In addition to specimen fund flow and cash flow statements. Gen BAL can be used to prepare audit forms, annual returns and calculate depreciation.

The software makes it super easy to automatically calculate profits and loss statements for quick preparation of balance sheets. The application can automatically generate balance sheet, profit-loss data, trading account and lists based on the Trial Balance provided by the user.

FEATURES OF GEN BALANCE SHEET

- Import Trial Balance
- Tax Audit Report
- Comparative Statements
- Customized Notes of Accounts
- Trading Account Preparation
- Deferred Tax Calculation
- Ratios Calculation
- Merge Trial Balances
- Several Formats of Final Accounts
- Cash Flow & Fund flow
- Depreciation Chart Preparation

WHY CHOOSE GEN BALANCE SHEET SOFTWARE

- ✓ **INSTALLATION GUIDE** By Support Team
- ✓ **UPDATES AS PER** Tax Department
- ✓ **CLIENTS TRUST** TDS Filing Solution
- ✓ **TRY FOR 10 ACTIVE** Working Hours
- ✓ **ALL-DAY** Technical Support
