In case if somebody makes an attempt to register the software online on another computer simultaneously fails to do so & will get the message that you have already activated the software on different machine. Thereby prevents any third person to use the software.

2. You are requested to provide us with your live e-mail address only, because all the information regarding the activation or surrender of software's will be communicated through this e-mail address only.

Important Notice :- Amount For the Hardware Lock Purchased will not be refunded in any case. If the customer wishes to switch over to the Online Registration process, then he has to submit the Hardware Lock back to the Company first, then only the activation Code for the Online Registration can be released.
